
PRAJWAL KOIRALA

Mechanical Engineering Student

https://github.com/PrajwalKoirala

CONTACTS

Email :
074bme627.prajwal@pcampus.edu.np

Mobile:
+977 – 9845082214

Address:
Lalitpur, Nepal

SKILLS

Programming Languages:
Python, C, Javascript

Numerical Analysis: Matlab

CAD/CAM/CAE:
AutoCAD, Autodesk Fusion360

Engineering Simulation: Ansys

Tensorflow, Numpy, p5.js,
Simulink, Arduino

RESEARCH INTERESTS

Control system
Estimation and Tracking
Dynamics
Optimization
Machine Learning
Robotics
Reinforcement Learning

EDUCATION

TRIBHUVAN UNIVERSITY, INSTITUTE OF ENGINEERING PULCHOWK CAMPUS
BE in Mechanical Engineering, 2017 – 2021 (expected)
Calculus, Linear Algebra, Numerical Methods, Control Systems, Dynamics, Probability and Statistics, Instrumentation, Fluid mechanics, Solid mechanics, Electrical machines

THE TIMES INTERNATIONAL COLLEGE
+2 Science, 2015–2017, 86.9%
Grade XI and XII
Physics, Mathematics, Computer Science

NARAYANI MODEL SECONDARY SCHOOL
School Leaving Certificate, 2015, 88.5%

WORK EXPERIENCE

INDUSTRIAL ATTACHMENT
Ebolt Technology (E-scooters)| 2021 APRIL
- Vehicle Dynamics, Control system, Vibrations, MATLAB Simulations

ENGINEERING INTERN
NEAR Aerospace| 2020 September– 2021 January
- Dynamics , Control and Estimation, MATLAB Simulations

CERTIFICATIONS

JULIUS MAXIMILIAN UNIVERSITY OF WURZBURG, GERMANY
Bachelor Modulstudium – Floatsat (Aerospace Information Technology), 2021(expected)

MOOCs:
Robotics Specialization by University of Pennsylvania, Coursera, July 2020
Deep Learning Specialization by deeplearning.ai, Coursera, June 2020
Control of Mobile Robots Course by GaTech, Coursera, December 2019
Machine Learning Course by Stanford University, Coursera, December 2018

AWARDS AND SCHOLARSHIPS

Runner-up, "Jigyasa : National Engineering Expo"
Merit-based scholarship for BE, Institute of Engineering, 2017
Merit-based scholarship for grade XI and XII, National Examination Board, 2015

PROJECTS

Design and Control of Hydraulic Suspension System for Passenger Vehicles, 2020
ANN based modelling of wind speed at Kagbeni, 2019
Self Driving Robotic Car Using Artificial Neural Network, 2019
